2nd Quarter 1999, April-June

*Because we have fallen behind in publishing the Quarterly Report, we are sending a package of material starting with the 2nd Quarter 1999 through the 2nd Quarter of 2000. We will try to maintain a regular schedule in 2000.*

## History Workshop

Richard Hall attended a UFO History Workshop organized by Tom Tulien. The workshop was held in Chicago, May 29-31, 1999, and included international attendance (Italy and France) with several other countries represented by papers presented to the workshop. This was a productive and enthusiastic meeting and the members of the workshop group agreed to:

1. Establish a "Project Sign" historical group.
2. Establish private and public web sites.
3. Register significant collections of UFO documents and material.
4. Begin an acquisitions program.
5. Conduct an outreach to historians and historical societies.
6. Publish proceedings of their meetings.
7. Target research in the historical arena that needs to be undertaken.
8. Develop and maintain a database relating to UFO history.
9. Expand the oral history project.

Documents released under the Freedom of Information Act and exhaustive research on the part of Dr. Maccabee reveal the extensive role the FBI played in the early investigation of the UFO phenomenon. Ten contributors (Appelle, Westrum, Donderi, Swords, Clark, Bullard, Jacobs, Hopkins, Mack, Persinger) to this prestigious volume examine the nature of the UFO evidence in all its complexity and present the case that the UFO phenomenon merits serious attention from mainstream science and academia. .... \$34.00

\_\_\_\_\_ (Video) ***The Trent Photographs***. Approximately 30 minutes. This professionally-produced documentary by Terry Halstead contains the only recorded video interview with the Trents (both now deceased) along with interviews of several of the principals who first brought the photos to public attention over 50 years ago. # NEW FUND PUBLICATIONS - JULY 2000

**From Airships to Arnold:** This UFO Research Coalition publication shows flying disc reports didn't start with Kenneth Arnold's renowned 1947 sighting. Spheres, saucers, domed discs, even objects with entities were reported in the half century leading up to Arnold. Richard Hall here presents the best of these reports. 34 pages; \$8.00

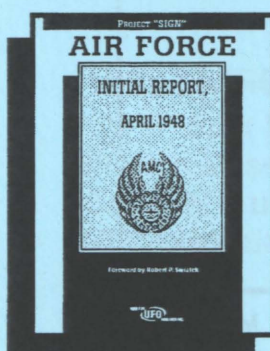

**Extraterrestrial Contact: What Will It Mean For Humanity?** When the saucer emissaries officially land and greet earth's leaders or SETI scientists announce they've discovered an alien radio station 100 light years away, how will humanity respond? Will chaos or curiosity predominate? Five eminent researchers ponder what might happen in this volume edited by Richard Hall. 55 pages; \$10.00

**The Ghost Rocket File:** Documents and News Articles Concerning Anomalous Objects Seen Over Scandinavia in 1946 Compiled by Jan L. Aldrich--Right before the modern age of UFOs began in 1947, strange flying objects were spotted streaking across the skies of Scandinavia in seeming vast numbers before disappearing after some months. This publication is a compilation of government documents--some appearing here for the first time--and newspaper articles concerning the so-called Ghost Rockets. 177 pages; \$23.00

**McMINNVILLE! Scientific Analysis of the Most Famous UFO Photographs Ever Taken** The famed Trent UFO photographs are 50 years old and have appeared in hundreds of books, articles, and TV documentaries. Do the pictures stand up to modern photographic analysis, however? Dr. Bruce Maccabee answers yes! and backs his opinion up in the two technical reports collected in this volume. 123 pages; illustrated; \$22.00

**PROJECT "SIGN" INITIAL REPORT, APRIL 1948** Foreword by Robert P. Swiatek --This is the first report of Project Sign, appearing just three months after the UFO project began. Unlike later reports, however, this summary of more than 100 cases shows none of the ridicule and debunkery that were the hallmarks of forthcoming Projects Grudge and Blue Book. 47 pages; \$8.00
